A first crack to provide as an example to the State, please edit...

\_\_\_ I have read and agree to follow the pesticide label including any measures to reduce spray drift, buffer requirements or application restrictions to water.

Hi Everyone,

I'm looking forward to our talk tomorrow. For folks in Seattle, I've reserved the 20<sup>th</sup> floor Cedar Conference Room. The phone line is: **Non-Responsive** Let's spend our time framing where we're at, sharing information on follow-up items from the managers' meeting, and reassessing where we are or aren't in agreement.

Here's the agenda:

Where are we? (Jenny)

Topics (All)

- 1) Does Oregon's Forest Practices Act have adequate buffers for aerial application of herbicides on Type N streams on forestland?
  - a. Current state regs
  - b. Other states
- 2) What's the process for determining practices or buffers when herbicides are aially sprayed on Type N streams on forestland?
  - a. Roles of ODF and ODA
  - b. Notification and enforcement
  - c. Policies
- 3) Why does Oregon need to go above and beyond FIFRA to address buffers for aerial application of herbicides on Type N streams on forestlands?
  - a. **Ex. 5 - Deliberative**
  - b. Condition specific to forest practices and buffers
- 4) What actions should Oregon take to have an approvable or improved program re: buffers for aerial application of herbicides on Type N streams on forestlands?
  - a. Type N protections under FPA, education, outreach, coordination between ODA and ODF, other items listed in issues paper
